

CURRICULUM VITAE

Name: Li Li Ji

Email: llji@umn.edu

Position: Professor and Director

Institution: School of Kinesiology, University of Minnesota Twin Cities

Location: 1900 University Avenue, Minneapolis, MN 55455, USA

Specialty & Present Interest:

free radicals-antioxidants homeostasis

common mechanisms of sarcopenia: overexpression of PGC-1 α , the master nuclear cofactor, ameliorates mitochondrial biogenesis, autophagy/mitophagy and fusion/fission dynamics thus improving crosstalk among key signaling pathways and reducing muscle protein loss.

Representative Careers:

1985-1987 Postdoctoral Researcher, Institute for Enzyme Research, University of Wisconsin-Madison

1987-1993 Assistant/Associate Professor, Department of Kinesiology and Division of Nutritional Science, University of Illinois at Urbana-Champaign

1993-1997 Associate Professor, Department of Kinesiology and Interdisciplinary Graduate Program of Nutritional Science, University of Wisconsin-Madison

2000 Visiting Professor, Karolinska Institute of Medicine, Stockholm, Sweden

1997-2011 Professor, Department of Kinesiology and Interdisciplinary Graduate Program of Nutritional Science, University of Wisconsin-Madison

1994-2011 Adjunct Professor, Institute on Aging, Cardiovascular Research Center, UW-Madison

1994-1997, 2003-2010 Chairman, Department of Kinesiology, University of Wisconsin-Madison

2011-2017 Director, School of Kinesiology, University of Minnesota-Twin Cities

2011-present Director, Laboratory of Physiological Hygiene and Exercise Science, Univ. of Minnesota

2017 Visiting Professor, University of Valencia Medical College, Spain
